

Project Specification: Tochigi Prefectural Museum Website Renewal (FY2026)

Note: This is an English translation of the original Japanese specification document, provided for engineering reference. Section numbering and item markers (ア/イ/ウ, (1)(2), (ア)(イ)(ウ), etc.) are preserved to match the original Japanese specification, so the "Spec Ref" column in the engineer hearing sheet can be cross-referenced directly. **Section 3 (Contract Fees) has been intentionally omitted.** The section number 3 is left blank to keep all other section numbers aligned with the original.

Document Scope

This specification defines the requirements for the FY2026 (Reiwa 8) Tochigi Prefectural Museum Website Renewal Project commissioned by Tochigi Prefecture (hereinafter referred to as "the Client" / 甲). The contractor (hereinafter "the Contractor" / 乙) shall perform the work according to this specification.

How to Read the Spec Ref Column

Section numbers and item markers in this document are aligned 1:1 with the original Japanese specification. The "Spec Ref" column in the engineer hearing sheet references this structure:

Main sections (本編)

- **8(2)オ** → Section 8, subsection (2), item オ (= e)
- **5(1)キ(ウ)** → Section 5, subsection (1), item キ (= g), sub-item (ウ) (= iii)
- **5(3)ス** → Section 5, subsection (3), item ス (= m)
- **12(1) No.5** → Section 12, subsection (1), Deliverable No. 5 in the table

Appendices (別記/別紙)

- **別記1** → Appendix 1 (whole)
- **別記1-3(3)** → Appendix 1, section 3 (Construction/Operation/Maintenance Requirements), item (3)
- **別記2-1(5)** → Appendix 2, section 1 (Website Production Work), item (5)
- **別紙** → Appendix sitemap (新サイトマップ)

Character mapping for Japanese item markers

- ア / イ / ウ / エ / オ / カ / キ / ク / ケ / コ / サ / シ / ス → a / b / c / d / e / f / g / h / i / j / k / l / m
 - (ア) / (イ) / (ウ) / (エ) / (オ) → (i) / (ii) / (iii) / (iv) / (v)
 - (1) / (2) / (3) etc. → same as English numbering
-

1. Purpose of the Project (1 委託業務の目的)

The Client operates the Tochigi Prefectural Museum website (<https://www.muse.pref.tochigi.lg.jp/>, hereinafter "the Current Site" / 現行サイト) to disseminate information about the museum's activities, including visitor information, exhibition guides, event information, research, and collection records.

However, the Current Site has the following issues:

- Outdated design with low visibility
- Insufficient SEO
- Difficult for target users (prefectural residents, other museums, researchers) to retrieve necessary information
- No multilingual user guide site, despite the revised Museum Act (April 2023) calling for tourism and international exchange integration

The Current Site will be renewed based on Article 3, Paragraph 3 of the Museum Act and Article 19, Paragraph 1 of the Museum Act Enforcement Regulations.

2. Scope of Work (2 業務範囲)

The Contractor shall produce the "New Tochigi Prefectural Museum Website" (hereinafter "the New Site" / 新サイト) and perform:

- ア **(a)** Renewal of the Current Site (現行サイトのリニューアル)
 - イ **(b)** CMS construction (CMSの構築)
 - ウ **(c)** SEO implementation (SEO施行の実施)
 - エ **(d)** Creation of operation manuals (操作マニュアルの作成等)
 - オ **(e)** Other matters necessary to perform this work (その他本業務を実施するために必要な事項)
-

3. [Section omitted]

4. Contract Period and Site Launch Schedule (4 委託期間及び新サイトの公開時期)

(1) Contract Period (業務委託契約期間)

From the contract execution date through **March 31, 2027 (Wednesday)** (end of FY2026 in Japan).

(2) Planned Site Launch (新サイトの公開時期)

Mid-March 2027 (planned).

5. System Requirements (5 システム要件)

(1) Basic Construction Requirements (構築に関する基本要件)

ア (a) Development Requirements (開発要件)

The Contractor shall prepare the development environment. Development details shall be determined through consultation between the Client and the Contractor.

イ (b) System Basic Requirements (システム基本要件)

The OS shall be a commonly used OS such as Microsoft Windows.

ウ (c) Client Environment (クライアント環境)

- The system shall be usable via web browser only over the internet (no dedicated software installation required).
- Museum staff shall be able to create, update, and manage content using the Client's PCs.

Client's PC Specifications (甲所有のPCに関する概要)

Item	Specification
OS	Windows 11 Pro
CPU	Intel® Core™ i5-1135G7
Memory	8GB
Storage	256GB SSD
Browser	Microsoft Edge
Display	14.0-inch WUXGA multi-touch LCD

エ (d) CMS Server Connection (CMSサーバへの接続)

- Login to the CMS server uses ID/password authentication.
- Approximately **3 accounts** shall be issued.
- ID count and permissions shall be determined through consultation after work commencement.

オ (e) License Costs (ライセンス費用)

No additional license costs shall be incurred due to increases in users or pages.

カ (f) Platform Requirements (対応プラットフォーム要件)

- **Browsers:** Latest versions of Microsoft Edge, Google Chrome, Firefox, Safari
- **OS:** Windows (11+), Mac OSX (latest), Android (12+), iOS (16+)
- **Devices:** PC, smartphone, tablet
- The site must remain functional through platform updates during the contract period.

キ (g) New Site Requirements (新サイト要件)

- (ア) (i) Responsive web design for PC, smartphone, tablet
- (イ) (ii) Use HTML, CSS, JavaScript, PHP (must satisfy all requirements in 5(1)カ)
- (ウ) (iii) Comply with the Personal Information Protection Act and **JIS X 8341-3** (web accessibility). Consider text visibility, color usage, and alt text for images
- (エ) (iv) Analytics items shall be decided through consultation. At minimum, page views and video view counts shall be measurable using **Google Analytics and Google Tag Manager**
- (オ) (v) Receive a **vulnerability audit** before site launch

(2) System Operating Environment Requirements (システム動作環境要件)

ア (a) Site Operation Requirements (サイトの稼働に関する要件)

- (ア) (i) 24/7/365 operation. Provide recovery or alternative means during outages
- (イ) (ii) Apply security patches during off-peak hours; provide alternative systems if possible

イ (b) SSL Communication Requirements (SSL通信に対応する要件)

- (ア) **Software** (ソフトウェアに関する要件): Software environment to be determined by consultation based on Contractor's proposal. The Contractor shall install all required software and perform initial setup
- (イ) **Network** (ネットワークに関する要件): System shall assume internet-based usage
- (ウ) **Security** (セキュリティ対策に関する要件): Sufficient measures against external attacks and internal unauthorized operations. Login/logout logs stored as operation logs, protected from unauthorized deletion/tampering

(3) Server Basic Requirements (サーバの基本要件)

- ア (a) The Contractor shall secure the necessary server and perform initial setup

- イ (b) Secure the server against unauthorized modification. Server shall handle sudden power outages without issues
- ウ (c) Implement computer virus countermeasures
- エ (d) Access logs must be recorded and analyzable
- オ (e) Page load: static pages within ~1 second, dynamic pages within ~2 seconds
- カ (f) SSL server certificate must be usable
- キ (g) System operating hours: 24/7/365 (366 in leap years)
- ク (h) Backups shall be performed automatically approximately once a month per server; recovery from latest backup must be possible
- ケ (i) Independent vulnerability inspection shall be performed at least once during the contract period
- コ (j) Server initial costs and current fiscal year usage/maintenance costs shall be included in the contract
- サ (k) SSL server certificate costs shall be included in the contract
- シ (l) Upon termination of a rental server contract, all data shall be deleted
- ス (m) Server selection shall comply with 別記1 (Appendix 1)

(4) Service Provision Requirements (サービス提供に関する要件)

ア (a) Incident Management (障害管理)

- (ア) (i) Coordinate with Client for software recovery and data restoration
- (イ) (ii) Analyze causes and implement corrective/preventive measures
- (ウ) (iii) Establish a single point of contact for incident reports

イ (b) Operations Support (運用支援)

Respond to technical inquiries regarding operations and system use after deployment.

6. CMS Requirements (6 CMS要件)

CMS shall be WordPress. Information updates shall be possible by non-specialists. Pages marked as having "update functionality" in the appendix sitemap shall have particularly flexible update capabilities.

- Apply necessary security patches; respond promptly to vulnerabilities
- Keep antivirus software definitions current

(1) Functional Requirements (機能要件)

- Must operate without issue in the environment described in 5(1)力
- **Plugins** to be installed shall be determined through consultation based on the Contractor's proposal

(2) CMS Operation Support (CMS操作等のサポート)

From the New Site launch through the end of the contract period, respond to inquiries about CMS operations and features.

7. SEO Implementation (7 SEO施工の実施について)

(1)

Implement SEO to maximize the effect of information dissemination about Tochigi Prefectural Museum.

(2)

Extract search keywords based on user interests/concerns and search volumes. Apply appropriate SEO to each page's title, H1, breadcrumbs, etc.

(3)

Use Google Search Console to constantly monitor indexing and crawling status. Quickly fix issues.

8. Renewal Requirements (8 リニューアル要件)

(1) New Site Design (新サイト設計)

When creating the site design plan, consider:

- ア (a) Category classification, pages, and inter-page navigation per the 別紙 (appendix sitemap)
- イ (b) Incorporate all items in the appendix sitemap as a baseline, but propose improvements based on view counts and effectiveness
- ウ (c) Important information or content related to multiple categories shall be accessible via multiple paths (top page, menu page, news page, etc.)
- エ (d) Create necessary new pages

(2) New Site Function Details (新サイト機能詳細)

- ア (a) Layout shall be organized so users can easily find information relevant to their attributes. To efficiently deliver multilingual information (English, Traditional Chinese, Simplified Chinese), design for **browser-based translation** to work optimally. Use original illustrations and photos beyond those provided by the Client
- イ (b) Content formatting shall be consistent. Include sidebars, in-site search, **SNS integration (e.g., Facebook)** to make content easy to find

- ウ (c) Perform overall site design, page design and layout, sitemap and wireframe creation, manuscript rewriting, and coding work
- エ (d) Use easy-to-understand, plain Japanese; rephrase difficult terms
- オ (e) **The reservation system shall continue to use the current system** (予約システムについては、現行システムを継続利用する)

9. Operation Manual Creation (9 操作マニュアルの作成等)

Create operation manuals explaining the operational procedures.

(1) Manual Creation (マニュアルの作成)

Create CMS operation manuals using illustrations and screenshots for clarity.

(2) Other Support (その他のサポート等)

Provide operational support during the contract period.

10. Post-Launch Operations (10 運用開始後の対応)

(1) Incident Response (障害対応)

ア (a) Establish a Support Contact

Contact Methods and Hours

Method (連絡方法)	Reception (受付時間)	Response (対応時間)
Email (電子メール)	24/7/365	Weekdays 9:00–17:00
Phone (電話)	Weekdays 9:00–17:00	(Same as reception)

For urgent issues (e.g., system outage), 24/7/365 reception and response is required.

イ (b)

Upon receiving an incident report, quickly verify the situation by phone and promptly take recovery measures.

ウ (c)

Communicate the cause, scope of impact, response plan, and estimated recovery time to the Client.

エ (d)

Record and manage the history of incidents and responses.

オ (e)

For **1 year after system launch**, the Contractor shall investigate technical issues and perform necessary program corrections **free of charge**, including correction of related documentation.

(2) Handover (引継ぎ等)

ア (a) Data Handover (データの引継ぎ)

Provide the following data free of charge:

- HTML files, CSS files, image files, and other content-related files
- Other data stored in the database (output format: **CSV** in principle)

イ (b) Data Migration Support (データ移行の支援)

Create documentation explaining the directory structure of content files and each column of the CSV output from the database.

11. [Section omitted] (11 委託費の支払い等)

12. Deliverables (12 成果品の提出等)

(1) Deliverables (成果品)

The following deliverables shall be submitted by the specified timing.

No.	Deliverable	Content	Timing
1	Renewal work schedule (リニューアル作業工程表)	Schedule of renewal work (free format)	Promptly after contract execution
2	Project plan (プロジェクト計画書)	Project objectives, deliverables, structure, management approach, schedule	Promptly after contract execution

No.	Deliverable	Content	Timing
3	Requirements definition document (要件定義書)	Document summarizing implementation of Client's requirements	Requirements definition phase
4	Operation flow definition document (運用フロー定義書)	Operation flow for page creation post-CMS deployment	Design phase and post-launch
5	System design documents (システム設計書)	Overall design, basic design, detailed design	Design phase
6	New site structural design (新サイト構造設計書)	Site structure design based on Client's requirements	Design phase
7	System set (システム一式)	Complete software set	Delivery
8	Software license certificates (ソフトウェアライセンス証書一式)	License certificates for delivered software	Delivery
9	Operations structure document (運用体制表)	Operations/monitoring structure, emergency contacts, communication flow	Before operations start
10	Google Analytics access permissions	Access permissions for visualizing visitor data	Before operations start
11	Content data as of launch (公開日時点のコンテンツデータ)	Rights shall be organized so the Client can create new images	Within 1 week from launch
12	Work completion report (業務完了報告書)	Confirmation report that all requirements are realized	Acceptance phase

No.	Deliverable	Content	Timing
13	New site structural design (final) (新サイト構造設計書 確定版)	Final site structure design	Acceptance phase
14	Content data added during contract period (公開開始日から契約期間満了までに追加したコンテンツデータ)	Content added during the contract period. Rights organized; format processable	End of contract period
15	System operation manual data (システム操作マニュアルデータ)	Operation manual on USB memory (1 original) and 2 printed copies	Before operations start

(2) Submission Location (提出場所)

Tochigi Prefectural Museum, General Affairs Division (栃木県立博物館総務課)

13. Other Provisions (13 その他)

- (1) Project deliverables shall belong to the Client
 - (2) Given the long contract period, specification changes due to social changes shall be implemented through consultation
 - (3) Deliverables shall not infringe third-party intellectual property rights
 - (4) In case of third-party IP infringement claims, the Contractor shall resolve at their own expense
 - (5) **Install Google Search Console**
 - (6) Submit production and meeting schedules promptly after contract execution. Meetings shall be approximately monthly
 - (7) Promptly report progress upon Client's request
 - (8) Design the New Site considering future updates/renewals (smooth data migration)
 - (9) Matters not specified shall be handled through consultation
 - (10) The Contractor shall not transfer or subcontract this work without prior Client approval
 - (11) Implement applicable items from 別記2 (Appendix 2)
-

別記1 (Appendix 1): Basic Requirements for Public Web Server Procurement and Operation

公開ウェブサーバの調達・運用管理等に係る基本的事項

1. Basic Policy (基本方針)

- (1) Implement security measures conforming to **Tochigi Prefecture Information Security Policy**
- (2) **Use the prefecture's subdomain** in principle
- (3) The website shall use HTTPS at all times; HTTP traffic shall redirect to HTTPS
- (4) Design considering availability and cost-effectiveness

2. Server Requirements (サーバ要件)

- (1) Use dedicated servers for public websites in principle
- (2) Server OS, middleware in a service form supporting updates and security measures
- (3) If using rental servers, explain to the prefecture; use only if approved
- (4) Must support prefectural subdomain settings and individual SSL certificates
- (5) The vendor shall verify the public server is secure (no vulnerabilities) before publishing
- (6) Maintain mechanisms/environment for constant up/down monitoring
- (7) Security measures: design appropriate measures based on functions used and information published; obtain prefecture's approval
- (8) Implement antivirus software and other countermeasures

(Examples of security functions) Firewall, IDS, IPS, **WAF (Web Application Firewall)**, authentication, reverse proxy, etc.

Note: If hosting in the prefecture's office (including Tochigi Prefecture's shared infrastructure / 栃木県共同利用型基盤), the prefecture can provide **WAF/CDN, NTP, and WSUS** environments.

3. Construction/Operation/Maintenance Requirements (構築・運用保守要件)

- (1) Provide system/network configuration, OS/middleware used, info for SSL certificate acquisition
- (2) Collect server OS/middleware vulnerability info; respond and report to prefecture
- (3) When constructing/renovating, perform vulnerability diagnosis before publishing
- (4) Refer to IPA's "How to Create Safe Websites" (安全なウェブサイトの作り方) and "Web Health Checkup Specification"
- (5) During operation, perform regular port scans, vulnerability checks, platform diagnostics
- (6) Manage admin users (complex passwords, MFA/2FA, security education)
- (7) When using rental servers/cloud services, declare information handling and check conformance

- (8) Acquire necessary logs and store for appropriate periods
- (9) Take measures to enable immediate closure/recovery when attacked
- (10) When managing user information, comply with "Personal Information Handling Notes"
- (11) Cooperate with the prefecture's security audits
- (12) When serious vulnerabilities are found, take necessary measures
- (13) For other vulnerabilities, consult with prefecture promptly

4. Incident Response (障害対応等)

- (1) Report emergency contact info to the prefecture in advance
- (2) Upon detecting security incidents, report promptly to prefecture
- (3) After failures or incidents, consider permanent countermeasures

別記2 (Appendix 2): Considerations for Digital Promotion Implementation

デジタルプロモーション等実施時における留意事項

1. Website Production Work (ウェブサイト制作に関する業務)

- (1) Consider publishing under subdomain of **pref.tochigi.lg.jp**
- (2) Install **Google Search Console**
- (3) Use JavaScript-tag-based form creation tools for forms operating within the website domain
- (4) Implement SEO to maximize business effect
- (5) Use Google Search Console for monitoring indexing/crawling; create Sitemap.xml
- (6) Verify tag management, Search Console, measurement tags, ad delivery tags work correctly before delivery

2. Google Analytics Account Management (Google Analyticsのアカウント管理)

- (1) "Project Google Analytics" (本業務用Google Analytics) is mandatory
- (2) For website integrations or major renovations, consider existing Google Analytics use
- (3) Set goals on "Project Google Analytics"; final report shall include results analysis
- (4) Obtain prefecture's approval for account creation. All rights transfer to the prefecture

3. Tochigi Prefecture Google Tag Manager (栃木県Googleタグマネージャーの管理)

- (1) Use "Tochigi Prefecture Google Tag Manager" for tags
- (2) Configure tags and trigger actions; perform tag firing tests
- (3) Obtain prefecture's approval; transfer all rights to prefecture

4. Appropriate Digital Promotion (適正なデジタルプロモーションの実施)

- (1) Separate ad media cost and management cost in estimates
- (2) Use Tochigi Prefecture's Digital Marketing Rule Setting Sheet (DM Sheet)
- (3) Set remarketing tags specified by the prefecture
- (4) Set events appropriate for promotion goals
- (5) Verify required data is collected within 1 week of ad operation start
- (6) Grant prefecture access to ad account management screens
- (7) Acquire new ad accounts for this project

5–9. (Platform-specific advertising guidelines)

Sections 5 (Google Ads), 6 (Yahoo! Ads), 7 (SNS Ads), 8 (Video production/Video ads), and 9 (Other) cover platform-specific requirements not directly relevant to web development effort estimation.

別紙 (Appendix): New Site Map (Proposed) - 新サイトマップ案

Page Structure

Level 1 (第1階層)	Level 2 (第2階層)	Level 3 (第3階層)	Top	Sub	Updates (更新機能)	Notes (補 足等)
HOME			○			Opening calendar, banners in footer
News (新 着情報)				○	Yes	Aggregate s museum blog, SNS links
	News detail (お 知らせ詳 細)			○		
Visitor Info (ご利 用案内)				○		Access, hours/fees , group info, etc.
	Floor map / facilities (館内マッ			○		

Level 1 (第1階層)	Level 2 (第2階層)	Level 3 (第3階層)	Top	Sub	Updates (更新機能)	Notes (補 足等)
	プ・施設紹介)					
Exhibition s (展示の ご案内)				○		Permanen t, special, themed exhibitions
	Permanen t exhibition (常設展)			○		
	Special / themed exhibitions (企画展及 びテーマ 展)			○	Yes	
		Special pages (特 設ページ 詳細)		○		
Events (イ ベント情 報)				○	Yes	Workshop s, lectures, etc.
	Event detail (イベ ント情報詳 細)			○		
	Event reservatio n (イベント 予約)			○		(Uses current reservatio n system)
About (博 物館につ いて)				○		Director's message, organizati on
	Collection (収蔵資料)			○		Links to collection database

Level 1 (第1階層)	Level 2 (第2階層)	Level 3 (第3階層)	Top	Sub	Updates (更新機能)	Notes (補 足等)
	Publicatio ns (出版物 一覧)			○		
For Teachers (先生方へ)				○

Forms (申 請書類等)				○		Applicatio n forms
Staff (職 員紹介)				○		
	Detail			○		
FAQ (よく あるご質 問)				○		
Links (リ ンク)				○		Various external links
Sitemap (サイトマッ プ)				○		

Key Notes

- **Exhibitions** (展示のご案内): Aggregate permanent, special, and themed exhibitions
- **Events** (イベント情報): Workshops, lectures, mobile museum, museum day
- **Collection** (収蔵資料): Link to external collection database
(digitalmuseum.pref.tochigi.lg.jp)
- **News** (新着情報): Aggregate museum blog (~1,000+ posts) and SNS links

Summary of Key Engineering Concerns

For estimation purposes, the most impactful technical concerns are:

#	Concern	Spec Ref
1	JIS X 8341-3 accessibility compliance — target level not specified	5(1)キ(ウ)
2	Server hosting form — shared infrastructure vs. external rental	5(3), 別記1
3	Pre-launch vulnerability audit — self-check vs. third-party	5(1)キ(オ), 別記1-3(3)
4	CMS = WordPress with non-specialist-friendly content updates	6
5	Content migration — ~1,000+ blog posts, ~137 exhibition pages (Movable Type → WordPress)	別紙
6	Multilingual — browser-translation-based; current /eng/ exists	8(2)ア
7	Reservation system — continue current system (Air リザーブ)	8(2)オ
8	Collection database — external link only (out of scope)	別紙
9	Operation manual creation	9, 12(1) No.15
10	Post-launch maintenance — 1-year warranty, free of charge	10(1)オ

If anything is unclear, please ask before estimating.
